### How Advanced Rotational Molding<sup>™</sup> Makes Toter Carts Superior

Toter employs an advanced rotational molding manufacturing process to produce a stronger cart that is built for toughness and maximum impact resistance. The process eliminates weakness and brittleness associated with injection molded plastic products.

### Advantages of Advanced Rotational Molding:

- Single-piece product design no seams
- Consistent wall thickness for toughness and durability
- Stress-free, zero-pressure process
- Unique design and structural capabilities like Rugged Rim<sup>®</sup>, sealed stop bar journals, and granite finish
- UV stable

Toter carts features a heavy-duty wear strip to withstand dragging across rough surfaces.

Only Toter carts have a Rugged Rim® to extend the life of the cart.

Toter carts are extremely impact-resistant they flex, but don't break.

# **3-STEP SYSTEM SOLUTION**

The Toter Pro product line is your All-In-One solution provider for all your waste handling needs. Our breadth of product serves multiple segments and applications, enabling your operation and tasks to be performed effectively and efficiently. Our 3 Step Process outlines the value that the Toter Pro products bring to the market.

### **BEAR-TOUGH CARTS**

# **AUTOMATED BEAR CART**

Toter Auto Bear Carts are built to withstand the toughest bears! Our carts are constructed with our Advanced Rotational Molding<sup>™</sup> process that creates an extremely durable trash can. We've armed them with a rugged rim to help prevent chewing, a double-walled lid, beefier handle and hinge and eliminated pry points. The Automated Bear Cart is compatible with both fully-automated and semiautomated applications

- Improves routing and collection efficiencies due to compatibility with both fully-automated and semiautomated application
- Safe and robust design is easy to maneuver, yet extremely difficult for bears to compromise.
- Strength is enhanced due to structural capabilities like Rugged Rim<sup>®</sup> and sealed stop bar journals
- Ready to roll design: lids, locks, stop bars, and body are fully assembled upon delivery
- Cost effective solution for communities seeking to bear
  proof their waste management program
- Interagency Grizzly Bear Committee's (IGBC) bear-resistant certification\*\*

FR010

Stronger and more rugged than standard plastic front load containers , Toter's Organics FEL Containers feature a steel-rod-reinforced rim and base to prevent bowing under the weight of heavy, wet, organic waste while maintaining the integrity of the container. The plastic material also helps withstand continued exposure to aggressive organic waste without rusting or corroding.

- Specifically designed for heavy, wet organic waste
- Built-in drain plug for easy clean-out
- Withstands exposure to organic waste without rusting
- Leak-proof
- Locking lid
