How Advanced Rotational Molding™ Makes Toter Carts Superior

Toter employs an advanced rotational molding manufacturing process to produce a stronger cart that is built for toughness and maximum impact resistance. The process eliminates weakness and brittleness associated with injection molded plastic products.

Advantages of Advanced Rotational Molding:

- Single-piece product design – no seams
- Consistent wall thickness for toughness and durability
- Stress-free, zero-pressure process
- Unique design and structural capabilities like Rugged Rim®, sealed stop bar journals, and granite finish
- UV stable

Toter carts features a heavy-duty wear strip to withstand dragging across rough surfaces.

Only Toter carts have a Rugged Rim® to extend the life of the cart.

Toter carts are extremely impact-resistant – they flex, but don't break.

3-Step System Solution

The Toter Pro product line is your All-In-One solution provider for all your waste handling needs. Our breadth of product serves multiple segments and applications, enabling your operation and tasks to be performed effectively and efficiently. Our 3 Step Process outlines the value that the Toter Pro products bring to the market.

BEAR RESISTANT CARTS

Toter's Fully Automated Bear Resistant Carts are designed to minimize conflicts with bears and other predators. Our carts are constructed with our Advanced Rotational Molding™ process that creates an extremely durable trash can. We've armed them with a rugged rim to help defend against chewing, a double-walled lid, beefier handle and hinge, and minimized pry points, which makes them tough enough to withstand the strongest claws and jaws!

- Improves routing and collection efficiencies due to compatibility with both fully-automated and semiautomated applications
- Safe and robust design is easy to maneuver, yet extremely difficult for bears to compromise.
- Strength is enhanced due to structural capabilities like Rugged Rim® and sealed stop bar journals
- Ready to roll design: lids, locks, stop bars, and body are fully assembled upon delivery
- Interagency Grizzly Bear Committee's (IGBC) bear-resistant certification*

Features:

- 5 year warranty
- Corrosion and chemical resistant
- UV stable
- RFID
- Space for graphics
