Sourcewell 

Awarded Contract

Contract # 120324-TOT

TOTER®/SOURCEWELL CONTRACT #120324-TOT

Sourcewell goes through the competitive bidding process so you don't have to, allowing you to satisfy your bidding requirements much faster - with less hassle.

Toter is part of Wastequip's family of brands—the All-In-One resource for waste handling needs.

WHAT IS SOURCEWELL?

Sourcewell is a public agency that offers competitively solicited purchasing contracts for products and equipment to member agencies so those members do not have to duplicate the solicitation process - it's already been done on their behalf! By leveraging competitively solicited and awarded contracts, your team has more time to handle other important tasks. Sourcewell awarded vendors - like Toter - can provide aggressive, competitive pricing.

Sourcewell 

Awarded Contract

Contract # 120324-TOT

WHY SOURCEWELL?

Sourcewell serves as a municipal contracting agency, competitively awarding cooperative contract solutions on the national level. They evaluate vendors on more than just price - they also consider quality and credibility. Sourcewell vendor contracts include hundreds industry-leading brands in areas such as facilities, maintenance and repair, technology, heavy equipment, utility equipment, and transportation - just to name a few. With free membership, access to suppliers of the most trusted brands, and aggressive, competitive pricing, the Sourcewell contract is the best option for our business.

HOW DOES SOURCEWELL WORK?

Sourcewell has the legislative authority, by law, to establish contracts for government and education agencies on a national basis. Sourcewell facilitates the competitive bidding process on behalf of their members' needs, and mirrors their contracting process. As a public agency, Sourcewell is its own lead agency to facilitate and hold contracts on behalf of its members. Members receive the added benefit of Sourcewell maintaining all procurement documentation and storing it, essentially creating a safe, secure paper trail.

CANOE PROCUREMENT GROUP OF CANADA

In a trusted partnership with Sourcewell, the already established Canoe Procurement Group of Canada is a robust Canadian not-for-profit organization built by and for the Public Sector, recognizes that canoes were integral historically in Canadian early explorations and trade, facilitating partnerships, trading and resilience in Canada. Canoe Procurement Group continuously seeks to expand cooperative purchasing in Canada, making procurement easier and more effective for its Canadian members, and affording its members to also purchase from Sourcewell suppliers. Toter's Sourcewell Contract is offered in Canada through this Canoe partnership.

TWO-WHEELED CURBSIDE COLLECTION CARTS

- Toter's renowned two-wheeled carts are available in 16, 21, 24, 32, 35, 48, 64, 65, 95 and 96-gallon sizes are compatible with automated and semi-automated lifters for garbage, recycling, organics and yard waste collection with an industry-leading 12-year body warranty.
- Available in a variety of colors, custom hot stamps, graphics and RFID tags.
- Nestable design allows fully assembled carts to be stacked inside one another for delivery efficiencies, reduced labor, and reduced delivery expense.
- Service options for cart assembly and delivery, and full service cart maintenance available.

ORGANICS CURBSIDE COLLECTION OPTIONS

- 2-gallon kitchen collector organics bins are equipped with top and bottom hand grips for easy dumping, a snap tight lid, a wall mountable design and a locking seal to prevent odors. These bins are dishwasher safe, which makes them easy to clean.
- 13-gallon organics bins are designed for collection with large handles at a comfortable height and heavy-duty wheels for easy transport to the curb. Featuring a latch and animal lock, it keeps away pesky predators.
- 21, 32, and 48-gallon organics automated collection carts are specifically designed to withstand heavy, wet organic waste with heavy-duty load ratings, and optional animal resistant locks.

FEL COLLECTION OPTIONS

- Standard FELs are available in 1, 2, 3, and 4-cubic-yard sizes.
- Organics FELs are specifically designed for heavy, wet organic waste with a leak-proof design, locking lid, and built-in drain plug, and are available in 2 or 3-cubic-yard sizes.
- Quieter, rust-resistant and corrosion-proof containers last up to three times longer than steel containers and require no painting.
- Lighter weight and easier to maneuver than conventional steel containers.

LIFTER OPTIONS

- TrimLift slim profile lifter is designed to fit rear-load and side-load applications.
- HighLift durable lifter is designed to fit rear-load and side-load applications.

OPTIMIZATION SERVICES

Cart optimization services provided by ContainerPros® services include

- Assembly and Delivery
- Labeling Services
- RFID Retrofit
- Residential and Commercial Maintenance Services/Contracts

FULLY AUTOMATED BEAR RESISTANT CART

Toter's Fully Automated Bear Resistant Carts are built to deter bears and other predators. Made with our ultra-durable Advanced Rotational Molding™ process, they feature a rugged rim, double-walled lid, reinforced handle and hinge, and reduced pry points to withstand even the toughest claws and jaws.

- Interagency Grizzly Bear Committee (IGBC), Wildlife Management Institute (Black Bear), and ANSI Standards certified fully automated 64 and 96-gallon carts.

EVR-Green (100% Recycled Two-Wheeled Cart Body)

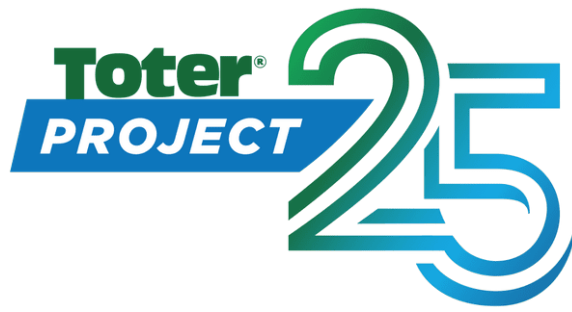

Toter has developed the industry's first two-wheeled cart with the entire body made from 100% recycled material. The EVR-Green features Toter's legendary toughness, with a rotationally molded body that outlasts and outperforms standard injection-molded carts, while leaving a greener footprint behind.

- Available in 32, 48, 64, and 96-gallon options
- Rugged wheels make maneuvering a breeze - even when completely full.
- Bottom wear strip provides added abrasion protection
- Available in Black only

PROFESSIONAL SERVICES PRODUCTS

- Decorative Litter Containers are a great addition to any park, town, retailer or other outdoor area.
- Round Cans are versatile and designed to withstand heavy and continuous use both indoors and out.
- Utility Carts, Cube Trucks, Slimline Containers and more are available online.

When it comes to durability, nobody beats Toter's rotational molding technology; technology that makes two-wheeled carts from Toter the industry standard for toughness. And when it comes to sustainability, Toter leads the way again, through its Project25 initiative. With Project25, Toter has committed to reducing the amount of virgin resin used in our entire cart manufacturing operation by 25%, and incorporating recyclables, both post-consumer (PCR) and post-industrial (PIR), which will reduce Toter's carbon footprint by at least 9% per cart. Find out more about Project25, and how to help reduce the carbon footprint of your carts at toter.com/project-25.
