

**FULLY AUTOMATED
BEAR RESISTANT CARTS**

Toter[®]
Built for Extremes[™]

GRIZZLY & BLACK BEAR CERTIFIED FULLY AUTOMATED BEAR RESISTANT CART

Toter's Fully Automated Bear-Resistant Carts are designed to minimize conflicts with bears and other predators. Constructed using our Advanced Rotational Molding™ process, these carts are built for exceptional durability. They feature a rugged rim to deter chewing, a double-walled lid, a reinforced handle and hinge, and fewer pry points—making them tough enough to withstand even the strongest claws and jaws!

- Interagency Grizzly Bear Committee's (IGBC) bear-resistant certification for both 64 & 96-gallon carts*
- Wildlife Management Institute (WMI) black bear-resistant certification for both 64 & 96-gallon carts**
- Improves routing and collection efficiencies due to compatibility with both fully-automated and semiautomated applications
- Safe and robust design is easy to maneuver, yet extremely difficult for bears to compromise
- Strength is enhanced due to structural capabilities like Rugged Rim® and sealed stop bar journals
- Ready to roll design: lids, locks, stop bars, and body are fully assembled upon delivery
- Two thru holes in the lip to allow for water drainage
- Meets ANSI standard Z245.30 for safety

AVAILABLE IN 64- and 96-GALLON SIZES

Part	Size	Dimensions (L x W x H)	Wheel Size	Weight
79A64-A	64 Gallon	32.3" x 25.2" x 45.5"	10"	43.9 lbs.
79A96-B	96 Gallon	36.3" x 30.2" x 45.5"	10"	52.4 lbs.

FEATURES:

- 5 year warranty
- Corrosion and chemical resistant
- Color options
- UV stable
- Optional RFID
- Space for graphics

*Certified by the Interagency Grizzly Bear Committee.
64 Gallon - IGBC Certification Number 5416
96 Gallon - IGBC Certification Number 245294

**Certified by the Wildlife Management Institute.
64 Gallon - WMI Certification Number BB0012
96 Gallon - WMI Certification Number BB0013

Rugged Rim Design

Increased Radius to Help Prevent Chewing

Easy Maneuverability

Rugged Hinge

Recessed Auto Gravity Lock
